Pricelist

General

On this page you can see the rates we are using for doing tax returns in 2021. Before doing your return we are preparing for it. Like checking tax law changes, we are updating the hand-in-help accordingly. We are asking for electronic assessments and dealing with administration connected to it. And in the rates included the work we do in collecting all the proofs, filing out the tax forms, report to you and handle questions. Because we do so many of them, we can keep the price low.

Income tax filing
